

SOLO 100 litter bin

Solo is a good and simple waste bin that is suitable for both the park and the city street. The curved sides make Solo visually slimmer despite its solid 100-liter capacity. Round holes and a graphically drawn ashtray panel gives Solo a soft and modest appearance. Part of the design of the Solo 100 is a polished concrete plinth that makes the bin heavy enough to stand free. Therefore, no additional mounting is required. The Nordic conditions have been taken into account considering the height of the splinth which ensures that the doors open smoothly even in snowy winters.

NOVE litter bin

FEATURES

An elliptical-shaped waste bin which has litter openings on both sides of the product for convenient waste disposal.

The lid of the waste bin has a stainless steel cigarette extinguisher.

The liquid that gets into the bin does not run out very easily due to the sloping bottom.

Emptying: opened at the front with a triangular key. Inside metal ring for a quick and convenient installation of the plastic bag. The large ashtray inside the lid can be emptied into the garbage bag with a simple movement.

Extery quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.

METAL

Solo 100 is available in stainless steel or in hot-dip galvanized and powder-coated sheet metal. The thickness of the zinc layer is 275 g/m² in accordance with EN 10346:2006.

RAL recommendation by designer:

RAL 7016
+ graffiti
protection

RAL 6005

RAL 9016

RAL 9007

INSTALLATION

Free-standing on a firm base.

Anchored to a firm foundation.

EXTRAS

Anti-graffiti coating – we offer the possibility to cover the waste bin with anti-graffiti coating. The anti-graffiti coating is repellent to the new color and makes the surface of the product very easy to clean.

Container – possible to choose Solo 100 with a removable inner container which enables the need to use the plastic bags and makes emptying safer in the occurrence of broken glass.

Material marking in product code:

01- container

G- anti-graffiti coating
