

JADA

Design by

Jada is a modular urban furniture system which allows easy creation of complete sitting areas. You can shape endless combinations to hem city squares, playgrounds, meandering walkways or to fill a plaza with suprising configurations. Backrests can be placed next to each other or facing each other allowing the creation of lying areas or separate slots for more privacy. Tables can be set in cozy private slots or can be organized around seatings to promote togetherness and create social gathering areas.

FEATURES

The modular solution allows you to combine endless solutions.

Fast installation of backrests and tables.

Easily replaceable wooden parts.

Hot-dip galvanized and powder-coated steel parts have the best corrosion resistance and aesthetics.

There are no visible fasteners on the surfaces.

The hot-dip galvanized and powder-coated steel frame and high-quality, knot-free wooden material makes the product very resistant to weather and use.

Extery quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.

INSTALLATION

Freestanding on a firm base.

Anchored to a firm foundation.

METAL

The steel frame is available in hot-dip galvanized and powder coated finish. The hot-dip galvanizing is done according to ISO 1461:2009 standard.

RAL recommendation by designer:

RAL 7016
