

## TAVA bench, with backrest

Design by  
**Sven Sörmus**  
iseasi

TAVA has been created to suit urban architectural environments, or to be presented as an eye-catcher in calm surroundings. Strong and wide wooden surfaces paired with the clever use of steel sheet material form the stable structure of this bench. The designer's vision has resulted in an abstract, elaborated and inviting shape that provides a secure spot for a moment of thought for those walking in the city

# TAVA bench, with backrest

## FEATURES

A unique combination of modernity and functionality.

With its unique design Tava is well noticeable but calm enough to perfectly fit in to city architecture.

With its strong and stable construction with total mass of 83 kg Tava is ideal to be installed as freestanding.

No visible fixing materials on the top surfaces of the wooden parts to ensure a pleasing look and feel of the products.

The hot-dip galvanized and powder-coated steel frame and high-quality, knot-free wooden material makes the product very resistant to weather and use.

Extery quality without compromise- harmonious design, carefully selected materials and engineering considered to the last detail.

## WOOD

The wood selection includes double layer oil coated knot-free thermo-treated ash.

Thermotreated ash (oiled)

## METAL

The steel frame is available in hot-dip galvanized and powder coated finish. The hot-dip galvanizing is done according to ISO 1461:2009 standard.

RAL recommendation by designer:

RAL 7016 + graffiti protection

RAL 7039

RAL 9002

## INSTALLATION

Anchored to a firm foundation.

Freestanding on a firm base.

## DIMENSIONS
